Begin your great adventure in a cozy little nook.  
Start at the teen center where we keep cool YA books.

Lounge in cozy chairs or read a hip new magazine,  
Then start to travel forward to where our science fiction can be seen.

Keep on walking forward now and take a little stroll.  
Look to your left and you should see libros en espanol.

When something blocks your path, it's not a treasure you have found.  
Don't let the computer center stop you. Keep going, walk around!

Now somewhere towards your right, you'll find some colorful ABC's.  
Look down to find the right place and to the left for 1,2,3's.

Here are kept the great books by White, and Avi, and Blume.  
You'll know you're on the right path if you're in the children's room!

When browsing these shelves for adventures, it's not far you'll have to look.  
Pick out a few that catch your eye and walk to where you check out books.

You've reached your final destination, ask our smiling clerks who are the best  
To look down at their feet, where lies our library letterbox treasure chest!

Congratulations! X marks the spot!
